How to Use this Style Selection & Cost Guide

- Universal Aesthetic Evaluation: Evaluate materials and design character for the entire home rather than a single room.
- Standardized Per-Sq.Ft Pricing: Turnkey execution rates are calibrated per square foot of carpet area for easy scaling.
- Rigorous Cost Categorization: Explicitly separates material purchase costs, installation labour fees, and turnkey execution.
- Planning Estimate Qualification: Rates reflect 2026 Tier-1 Indian market conditions (Hyderabad, Bengaluru, Delhi-NCR, Mumbai).

Understanding Interior Design Costs in 2026

How per-square-foot pricing works, turnkey execution scope, inclusions, exclusions, and cost taxonomy.

Cost Categories & Taxonomy

* Total Interior Execution Cost / sq.ft: The combined all-inclusive turnkey benchmark per sq. ft. of carpet area covering both material purchase and skilled installation labour.

* Furniture & Material Purchase (65% - 75%): Procurement of BWP/BWR marine plywood, 1mm laminates, acrylics, hardware (Hettich/Hafele), lighting luminaires, and architectural paints.

* Installation & Contractor Labour (25% - 35%): Skilled on-site charges for carpentry joinery, electrical piping, false ceiling grid installation, tiling masonry, and painter surface finishing.

* Universal Comparability: Benchmarked per carpet area sq. ft. across 1BHK, 2BHK, 3BHK, or independent villas regardless of individual room partitions.

Scope: Inclusions & Exclusions

WHAT IS INCLUDED IN TURNKEY EXECUTION:

- Civil prep, surface plastering & flooring installation
- False ceiling framing, gypsum boards & cove lighting channels
- Premium 2-coat wall painting with primer and putty
- Modular carpentry: kitchen, wardrobes & vanity units
- Concealed electrical conduits, wiring & switchboards

WHAT IS EXCLUDED (BUDGET SEPARATELY):

- GST (Goods & Services Tax): 18% standard, quoted separately
- Loose furniture (movable sofas, accent chairs, dining table)
- Appliances (refrigerator, oven, hob, chimney, televisions)
- Structural demolition or balcony masonry alterations

Work Category Planning Allowances (2026 India Market)

Indicative preliminary trade allowances. Note: Total turnkey execution rates already integrate these categories.

Work Category	Approximate Cost Range	Trade Scope & Specifications Included
Painting and wall finishes	**Rs. 25 - Rs. 60 / sq. ft.**	Surface sanding, 2 coats acrylic putty, 1 coat primer, 2 coats washable premium emulsion (Asian Paints Royale / Berger).
False ceiling	**Rs. 75 - Rs. 180 / sq. ft.**	Gyproc Saint-Gobain 12.5mm boards, galvanized steel framework, cove lighting recesses, and flush joint finishing.
Flooring installation	**Rs. 40 - Rs. 120 / sq. ft.**	Laying charges for vitrified tile or SPC/laminate wooden flooring, chemical screed leveling, and epoxy joint grouting.
Basic electrical & lighting labour	**Rs. 30 - Rs. 80 / sq. ft.**	Concealed PVC conduit routing, fire-retardant copper wiring, modular switchboard terminations, and LED spot fixtures.
Interior carpentry & furniture	**Scope / quantity dependent**	IS:710 boiling waterproof plywood framing, 1mm high-gloss/matte laminates, hydraulic soft-close hinges and drawer channels.
Decorative finishes	**Scope / material dependent**	Fluted charcoal louvers, CNC jaali architectural screens, textured stone cladding, acoustic slat panels, and metallic trims.

Crucial Rule: Do Not Add Individual Trade Rates Together

- Trade Measurement Differences: Flooring and painting are quoted against measured surface areas, while electrical points and modular carpentry are quoted per unit/running foot.
- Integrated Turnkey Allowances: Do NOT add individual trade numbers together. The HomeVerse turnkey execution rate per sq.ft already combines these allowances harmoniously.
- Market Variance: Published 2026 data shows false ceilings at Rs. 75 - Rs. 250/sq.ft and turnkey packages varying significantly by finish tier and metropolitan location.

Market Pricing Qualifications & Contractor Verification Checklist

1. Planning Estimates vs Fixed Tariffs: Rates are indicative planning benchmarks for early budgeting, not guaranteed vendor quotes.
2. Geographical Scope: Benchmarked for Tier-1 Indian Metros (Hyderabad, Bengaluru, Delhi-NCR, Mumbai, Pune, Chennai).
3. Detailed BOQ Required: Always request a detailed Bill of Quantities specifying plywood brand (IS:710), laminate codes, and hardware brands.
4. GST Transparency: Confirm upfront whether quotations are GST-inclusive or GST-exclusive (standard 18% difference).

STYLE 01 | MID-RANGE TIER

Japandi

Calm + Natural + Balanced

Harmonious union of Japanese wabi-sabi minimalism and Scandinavian warmth. Focuses on organic curves, natural light woods, linen textures, and serene uncluttered spaces.

TOTAL INTERIOR EXECUTION: Rs. 1,500 - 2,300 / sq.ft

Typical 1,000 sq.ft Home Estimate: Rs. 15 - 23 Lakhs (Excl. 18% GST)
